# Let it hAPYN

This action arises from the project "Let it hAPYN" which has received funding from the European Union in the framework of the Health Programme.

## Let's boost your project idea!

Now more than ever, young people will have the opportunity to \*boost\* they project idea on the field of alcohol, let it be prevention or reduction of alcohol related harm. The initiative is supported by the European Commission's 2nd Health Programme and is stimulating youth organization to work on the field of youth research into young people and alcohol, advocacy of more comprehensive alcohol policies and develop their own projects to prevent and reduce alcohol related harm.

As a part of the Let it hAPYN project, APYN is conducting a survey on young people's attitudes regarding alcohol policies. With this survey we aim to find out more about young people's opinions regarding various alcohol measures that are or are not implemented in their countries and gather suggestions to improve the strategy to reduce the alcohol related harm in Europe. You can fulfill it or enroll to translate the survey to your language [on this link.](#)

Between 10th and 16th December 2014, APYN and CLA from Turkey organized the 2nd European Alcohol Policy Youth Conference in Bursa, Turkey. During the event we organized also several parallel trainings on the topics of the project which were a kind of update of the evidence-based trainings we had in Amsterdam in September 2014. In one of the next newsletters you can expect more information about the so-called Bursa Paper that is urging different stakeholders to act on alcohol.

STAP is an associated partner in Let it hAPYN! and is a national, independent knowledge institute of alcohol policy. It was established in 1994 and it advocates effective alcohol policies and greater public awareness of the risks of alcohol. It works towards the dissemination of objective information about the health risks of alcohol and other forms of alcohol related harm, such as nuisance, road traffic accidents and domestic violence.
